SUBITH M

Senior UX / Product Designer

+971 50 169 8664 | text2subith@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Senior UX / Product Designer with 6+ years of experience designing scalable digital products across web, mobile, and enterprise platforms. Successfully delivered 15+ projects across FinTech, EdTech, Healthcare, Mobility, Energy Trading, GovTech, and SaaS, including Singapore government initiatives. Experienced in end-to-end product design, from user research and UX strategy to interaction design, high-fidelity UI, prototyping, usability testing, design systems, and AI-powered product experiences. Adept at collaborating with cross-functional Agile teams to deliver user-centric solutions that simplify complex workflows, align business goals, leverage emerging AI capabilities, and create meaningful user experiences.

SKILLS

Design: UX Strategy & Discovery, End-to-End Product Design, Wireframing & Interaction Design, High-Fidelity UI Design, Prototyping, Responsive & Mobile-First Design, Design Systems & Component Libraries, SaaS & B2B Product Design

Research & Quality: User Research & Usability Testing, Accessibility (WCAG Standards)

Collaboration: Stakeholder & Client Management, Design Handoff & Developer Collaboration, Agile / Scrum Collaboration

Tools: Figma, Sketch, InVision, Adobe XD

AI: AI-Assisted UX Design, Generative AI Tools (ChatGPT, Claude, Copilot)

EXPERIENCE

Avanade — *UX Designer, Senior Analyst* *July 2025 - Present*

- Lead Product Designer / UI/UX Designer for AIC (Agency for Integrated Care), Singapore Government, owning the end-to-end design of two enterprise portals (Senior Engagement Portal, Volunteer Management Portal).
- Designed the offline-first tablet app and volunteer portal for AIC's senior engagement programme, moving 100% of outreach from paper to digital with no data lost to network drops and cutting post-visit data processing from 3+ days to under 3 minutes.
- Served as the Senior UI/UX Designer for the Singapore Parliament Gift Inventory Portal, designing a secure enterprise application focused on inventory management, operational workflows, and user experience optimisation.
- Led the UI/UX design for the YTL PowerSeraya Portal, collaborating with cross-functional stakeholders to deliver intuitive, scalable, and user-centric enterprise solutions, cutting monthly settlement preparation from about 5 days to 1.5 days and reducing manual reconciliation errors by about 30%.
- Sole designer for Sun Mobility's CNC Portal, Billing Portal, and Station UI, driving the complete UX strategy and product design lifecycle from discovery and wireframing to high-fidelity design, prototyping, developer handoff, and implementation.
- Revamped EduSenz, an AI-powered Training Management System (TMS) and Learning Management System (LMS), and iTrack, an enterprise ticketing platform, by conducting user interviews, stakeholder workshops, usability testing, and A/B testing to validate design decisions, improve task completion, and enhance overall user experience.
- Conducted UX research, designed user flows, high-fidelity interfaces, and interactive prototypes, partnering with product managers, business analysts, and engineering teams in Agile environments to establish scalable design systems, improve usability, and ensure consistent user experiences across enterprise platforms.

Squadra Media — *Sr. Product Designer / UX Designer* *October 2024 - June 2025*

- Led the end-to-end product design for SeaVerse LMS, a learning management system built for the maritime industry, designing the Administrator Portal, Learner Portal, and mobile applications from concept to delivery.
- Managed and mentored the design team, driving design quality, consistency, and timely delivery for a platform supporting 180+ vessels across international commercial shipping fleets, while collaborating closely with product managers, developers, and business stakeholders.

- Led discovery workshops, stakeholder interviews, and user research to shape product strategy and UX decisions, then facilitated usability testing and iterative design improvements with cross-functional Agile teams to deliver user-centered, accessible, and scalable enterprise solutions.
- Created user flows, information architecture, wireframes, interactive prototypes, and scalable design systems, ensuring a seamless experience across web and mobile platforms.
- Cut localised course-authoring time by about 45% by designing a modular subtitle (SRT) pipeline for multilingual crew training, and delivered 100% digital compliance-audit readiness for SIRE 2.0 and STCW inspections.

LootLearn — *Sr UI/UX Designer* *January 2022 - September 2024*

- Led the end-to-end design of web and mobile products across EdTech, Healthcare, FinTech, Enterprise SaaS, and B2B platforms, from product discovery and UX strategy to high-fidelity UI, prototyping, and developer handoff.
- Designed a Freelancer Management Portal from scratch, conducting stakeholder interviews, user research, competitor analysis, user journey mapping, and information architecture to create an intuitive and scalable platform.
- Delivered user-centered EdTech solutions, collaborating with product managers, developers, and business stakeholders to improve learning experiences through heuristic evaluations, usability testing, iterative design, and responsive interfaces.
- Built scalable design systems, reusable UI components, and interactive prototypes in Figma, ensuring accessibility, consistency, and efficient collaboration across Agile teams.

StudySoup Incorporated — *UI/UX Designer* *May 2020 - November 2021*

- Designed end-to-end user experiences for StudySoup's EdTech platform, creating intuitive web and mobile solutions for students, Subject Matter Experts (SMEs), and mentors to enhance learning, collaboration, and content accessibility.
- Conducted user research, stakeholder interviews, usability testing, and heuristic evaluations to identify user needs, translating insights into iterative, user-centered improvements that optimized learning workflows and aligned with business objectives.
- Created user flows, wireframes, interactive prototypes, and high-fidelity UI, ensuring responsive, accessible, and consistent experiences while collaborating closely with product managers and developers in Agile teams.

EDUCATION

UX/UI Design — DesignBoat UI/UX School *Sep 2019 - Jan 2020*

MSc Physics — Bangalore University *Aug 2014 - July 2016*
Acharya Institute of Graduate Studies

BSc Physics — Kannur University *June 2011 - May 2014*
Gurudev Arts and Science College

CERTIFICATIONS

Microsoft UX Design Professional Certificate

UX Design in Practice: Accessibility and Collaboration

Professional Bootcamp in UX/UI Design — *DesignBoat UI/UX School*
